Subject: General Plan Update November 2000-Chapter 3. Caring for Land, Water & Culture

Aloha Chairman Abrams & Members of the Charter Commission,

I would like to request agenda time on your next Charter Commission meeting to discuss the above subject matter and it's applicability to the charter.

We are all aware of the cause and affects of ongoing developments adversely affecting the land, water and culture of Kauai. I request that a moratorium be established on future developments and rezoning. I seek your comments and opinion on this matter.

Thank you in advance.

Sincerely,

Rupert Rowe
